

1099

Nylon coated ink filter designed to remove contaminants. Extra large surface area using stainless steel pleated basket. Coating allows easy cleaning.

Extra strong rare earth magnet is fitted as standard to trap ferrous material and prevent damage to rollers. The magnet is enclosed in a top hat cover which makes it simple to remove the collected contaminants.

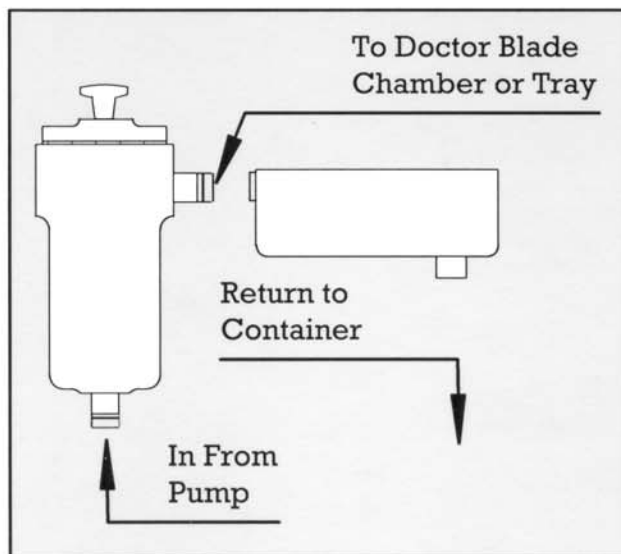

Parts:

- 1099B Nylon coated body
- 1031 Nylon coated lid
- 1037 Black cross knob
- 1022 Cork/neoprene gasket fitted as standard
- 1021SS Stainless steel top scoop
- 1020SS Stainless steel bottom scoop
- 1016 Rare earth magnet complete with stem and hardware
